

Revitalizing America

01.

REVITALIZING AMERICA'S THESIS

Backstory and Problem Statement

PROBLEM

American politics is broken.

At the heart of the complete lack of results is a failure of methodology.

SOLUTION

Based on the complexity of the 21st Century, we need a new way of solving our problems. Revitalizing America presents a vision for the future of politics.

A POLITICS FOR THE 21ST CENTURY (WITHOUT THE POLITICS)

Fundamental Method of Progress: humans beings asking the right questions and then getting the right people to work on them in the right way...

The RA methodology internalizes this, and can be summarized as follows:

Step 0: Ask Interesting Questions

Step 1: Identify the landscape of Smart Answers to these questions

Step 2: Do Good Politics on top of this basis

RA's ambitious mission is to produce an end-to-end detailed "American Playbook": an ever-updating *Library of Law* of answers to our fundamental problems (think Wikipedia meets GitHub).

We believe this growing solution library will serve as the basis of a much more meaningful, productive, and healthy politics.

To build the *Library of Law*, we've composed a program of (1) Domestic & (2) International matters (inspired by the precedent of David Hilbert's 1900+ approach).

SOLUTION: OPEN-SOURCING POLITICS (THE LIBRARY OF LAW)

Scalable

Well-defined solutions fuel a growing Library of Law, serving as America's North Star and the basis of a smarter politics.

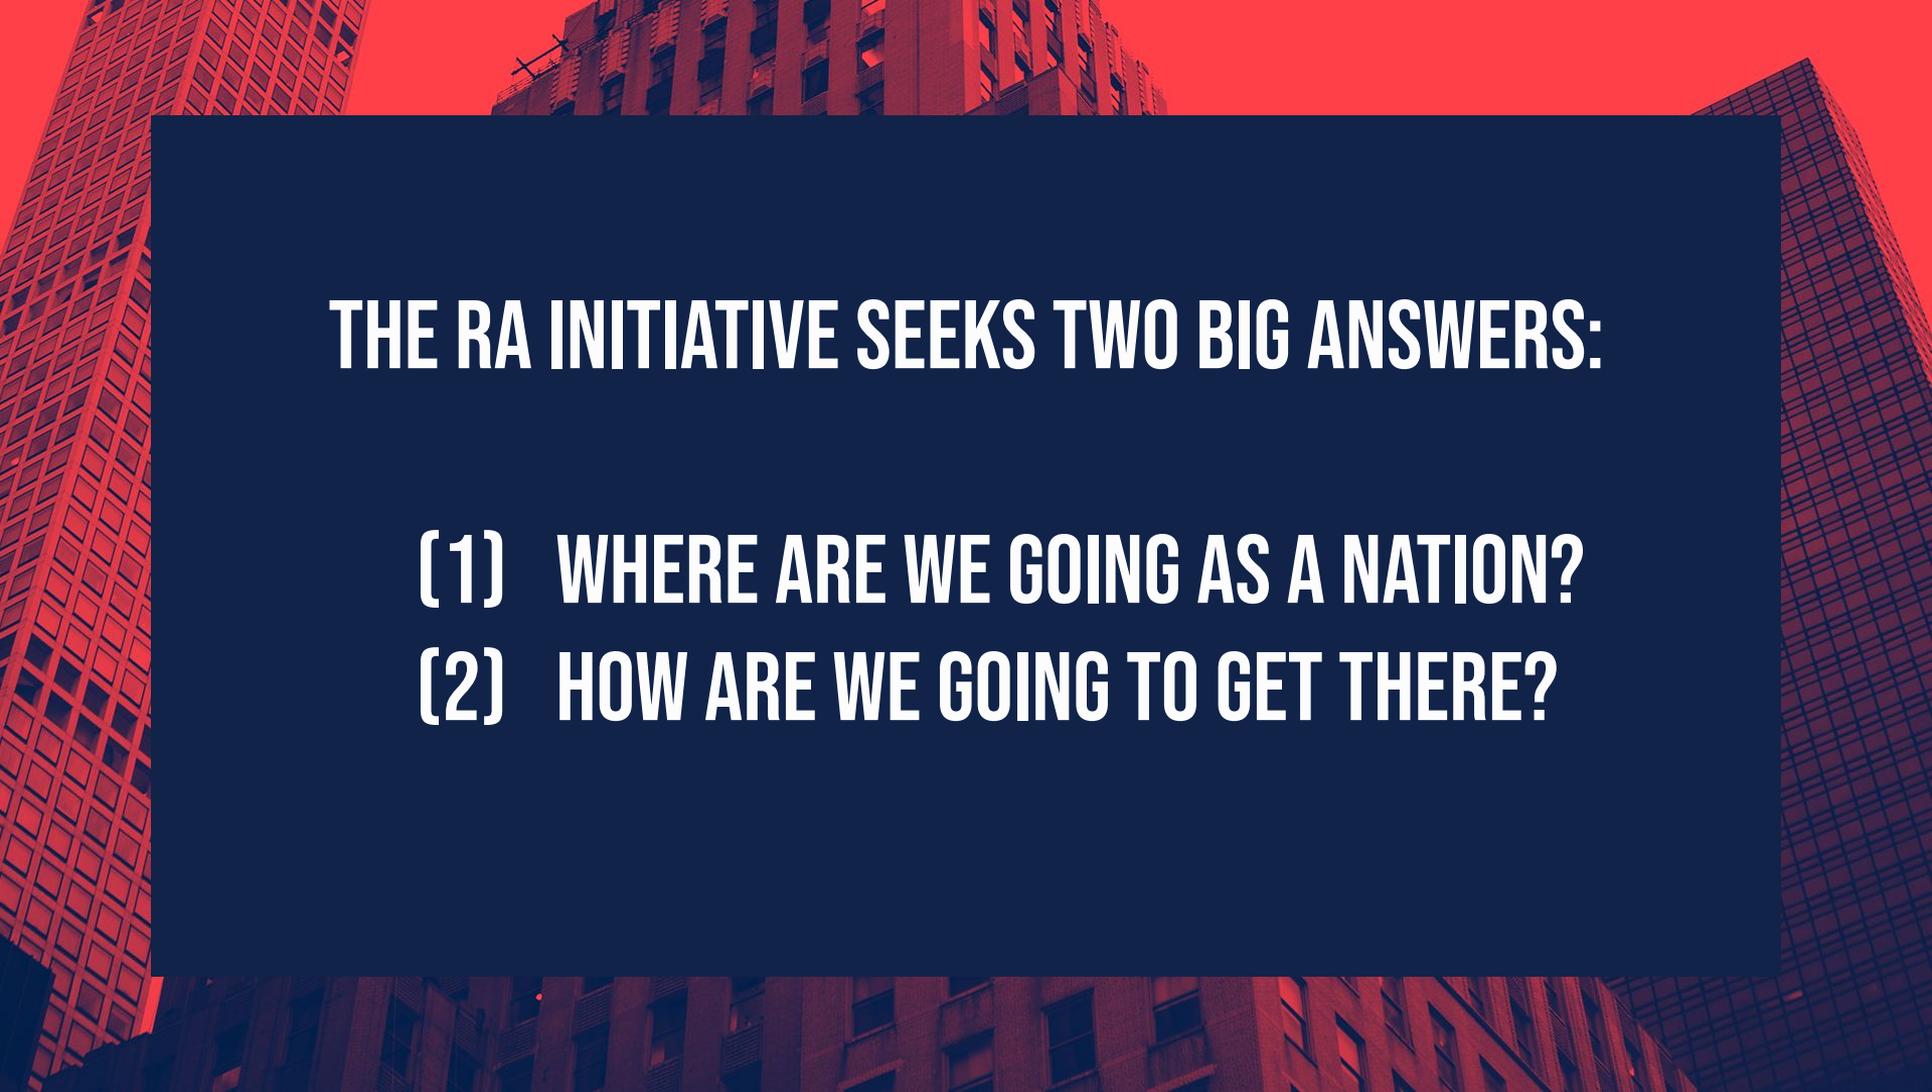

Non-Partisan

Regardless of the party in charge, our politics is only as effective as our finalized solutions to fundamental problems.

Necessary

The scale, complexity, and interdependence of our problems requires a well organized fixture for the public intelligentsia.

THE RA INITIATIVE SEEKS TWO BIG ANSWERS:

(1) WHERE ARE WE GOING AS A NATION?

(2) HOW ARE WE GOING TO GET THERE?

DOMESTIC QUESTION SAMPLER

ON MEANING

In an age of increasing nihilism, how do we find purpose & optimism in the future?

REGAINING TRUST

How can the Government re-earn the respect & trust of the people?

HEALTHCARE

How can we redesign healthcare and insurance to make it truly universal?

EDUCATION

How should we be educating our population for the 21st century?

INTERNATIONAL QUESTION SAMPLER

COVID-19

Present a wholesome domestic and international plan of action to combat the COVID-19 pandemic.

AI

How can we ensure that AI is working in our best interest?

NUCLEAR WEAPONS

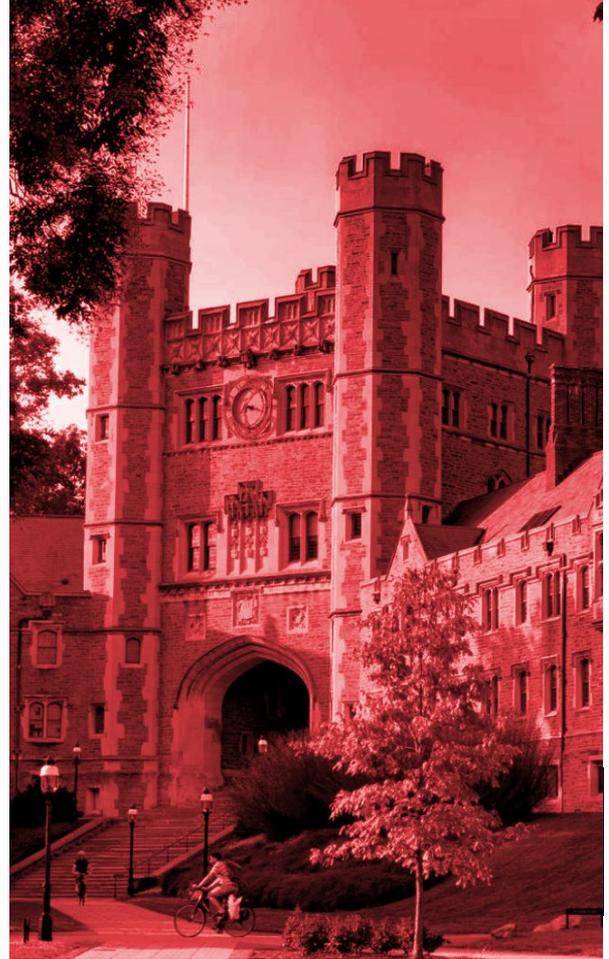

Is there an alternative doctrine to Mutually Assured Destruction?

CLIMATE

What is the ideal global energy stack for the next 5/10/20 years?

02. ALPHA INITIATIVE: 2021 @ PRINCETON

Launching tomorrow by building today

REVITALIZING AMERICA (RA) @ PRINCETON

Revitalizing America's non-partisan & open source policy-building initiative is now underway in the Princeton Ecosystem.

Since Summer 2020, we've been working with Prospect Student Ventures to locate leading student founders & projects at Princeton (PSV is an undergrad Venture Club affiliated with Princeton's Keller Center for Entrepreneurship).

Prospect Student Ventures

Throughout the 2020-2021 academic year RA is distributing microgrants to student, faculty, and researcher teams working on facets of any of the 23 problems of the program.

With the initiative, we seek to demonstrate proof of concept on the RA methodology, and to seed the 1.0 of the *Library of Law*.

1ST GRANTEE: REPRESENTABLE

Representable is an anti-gerrymandering software built in partnership with Princeton's Gerrymandering Project that looks to empower communities of interest (COI's) so they can be heard in the redistricting process following the 2020 US Census.

HOW IT WORKS?

Answer Questions

Thought-provoking questions built based on policy and legal definitions of COIs.

Draw a Community Map

Use landmarks, zoom, and navigation for an easy drawing experience.

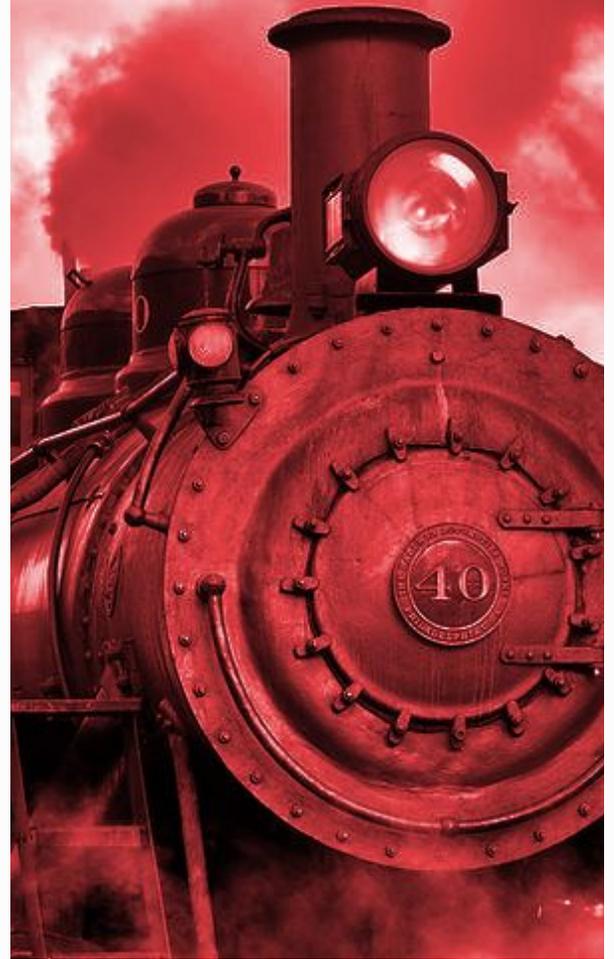

Visualize and Export

Export as GeoJSON or PDF file. Our data is interoperable with other mapping softwares.

03. RA: A STARTUP BUILDING VALUE

Our Action Plan For The Future

THE RA PRODUCT

- *Library of Law* (online solution ledger)
- The Atlas (related background material)
- Suite of tools to build policies (via an open-source programming language)
- Media Related to the RA initiative

WIKIPEDIA

GITHUB

Wikipedia is the internet's encyclopedia. RA's *Library of Law* will be the home of policy.

Github is where the world builds software. RA will be where the world builds laws.

RA BUSINESS

Incubator

RA incubator in the spirit of Y-Combinator: A destination for people at the intersection of science, technology, and public policy.

Fund

An angel/seed Fund dedicated to the approach of the Revitalizing America program (both for-profit & non-profit ventures).

Think Tank

A new kind of think tank that would manage and contribute to the open source *Library of Law*.
